

TRADELOCKER

Next-Gen Trading Platform

Built by listening to the needs of traders, brokers, and prop firms that refuse to trade in the past.

Boost trading volume and frequency
by introducing simplicity and innovation.

Trading made for traders of next-gen.

With the speed of AI innovation, user-friendly crypto platforms, and short attention spans on social media, do you really think your traders want to be stuck trading in the past?

Full Chart Trading and On-Chart Trading

Traders without four screens at their disposal should not have to sacrifice the quality of their trading experience.

SL&TP Calculator

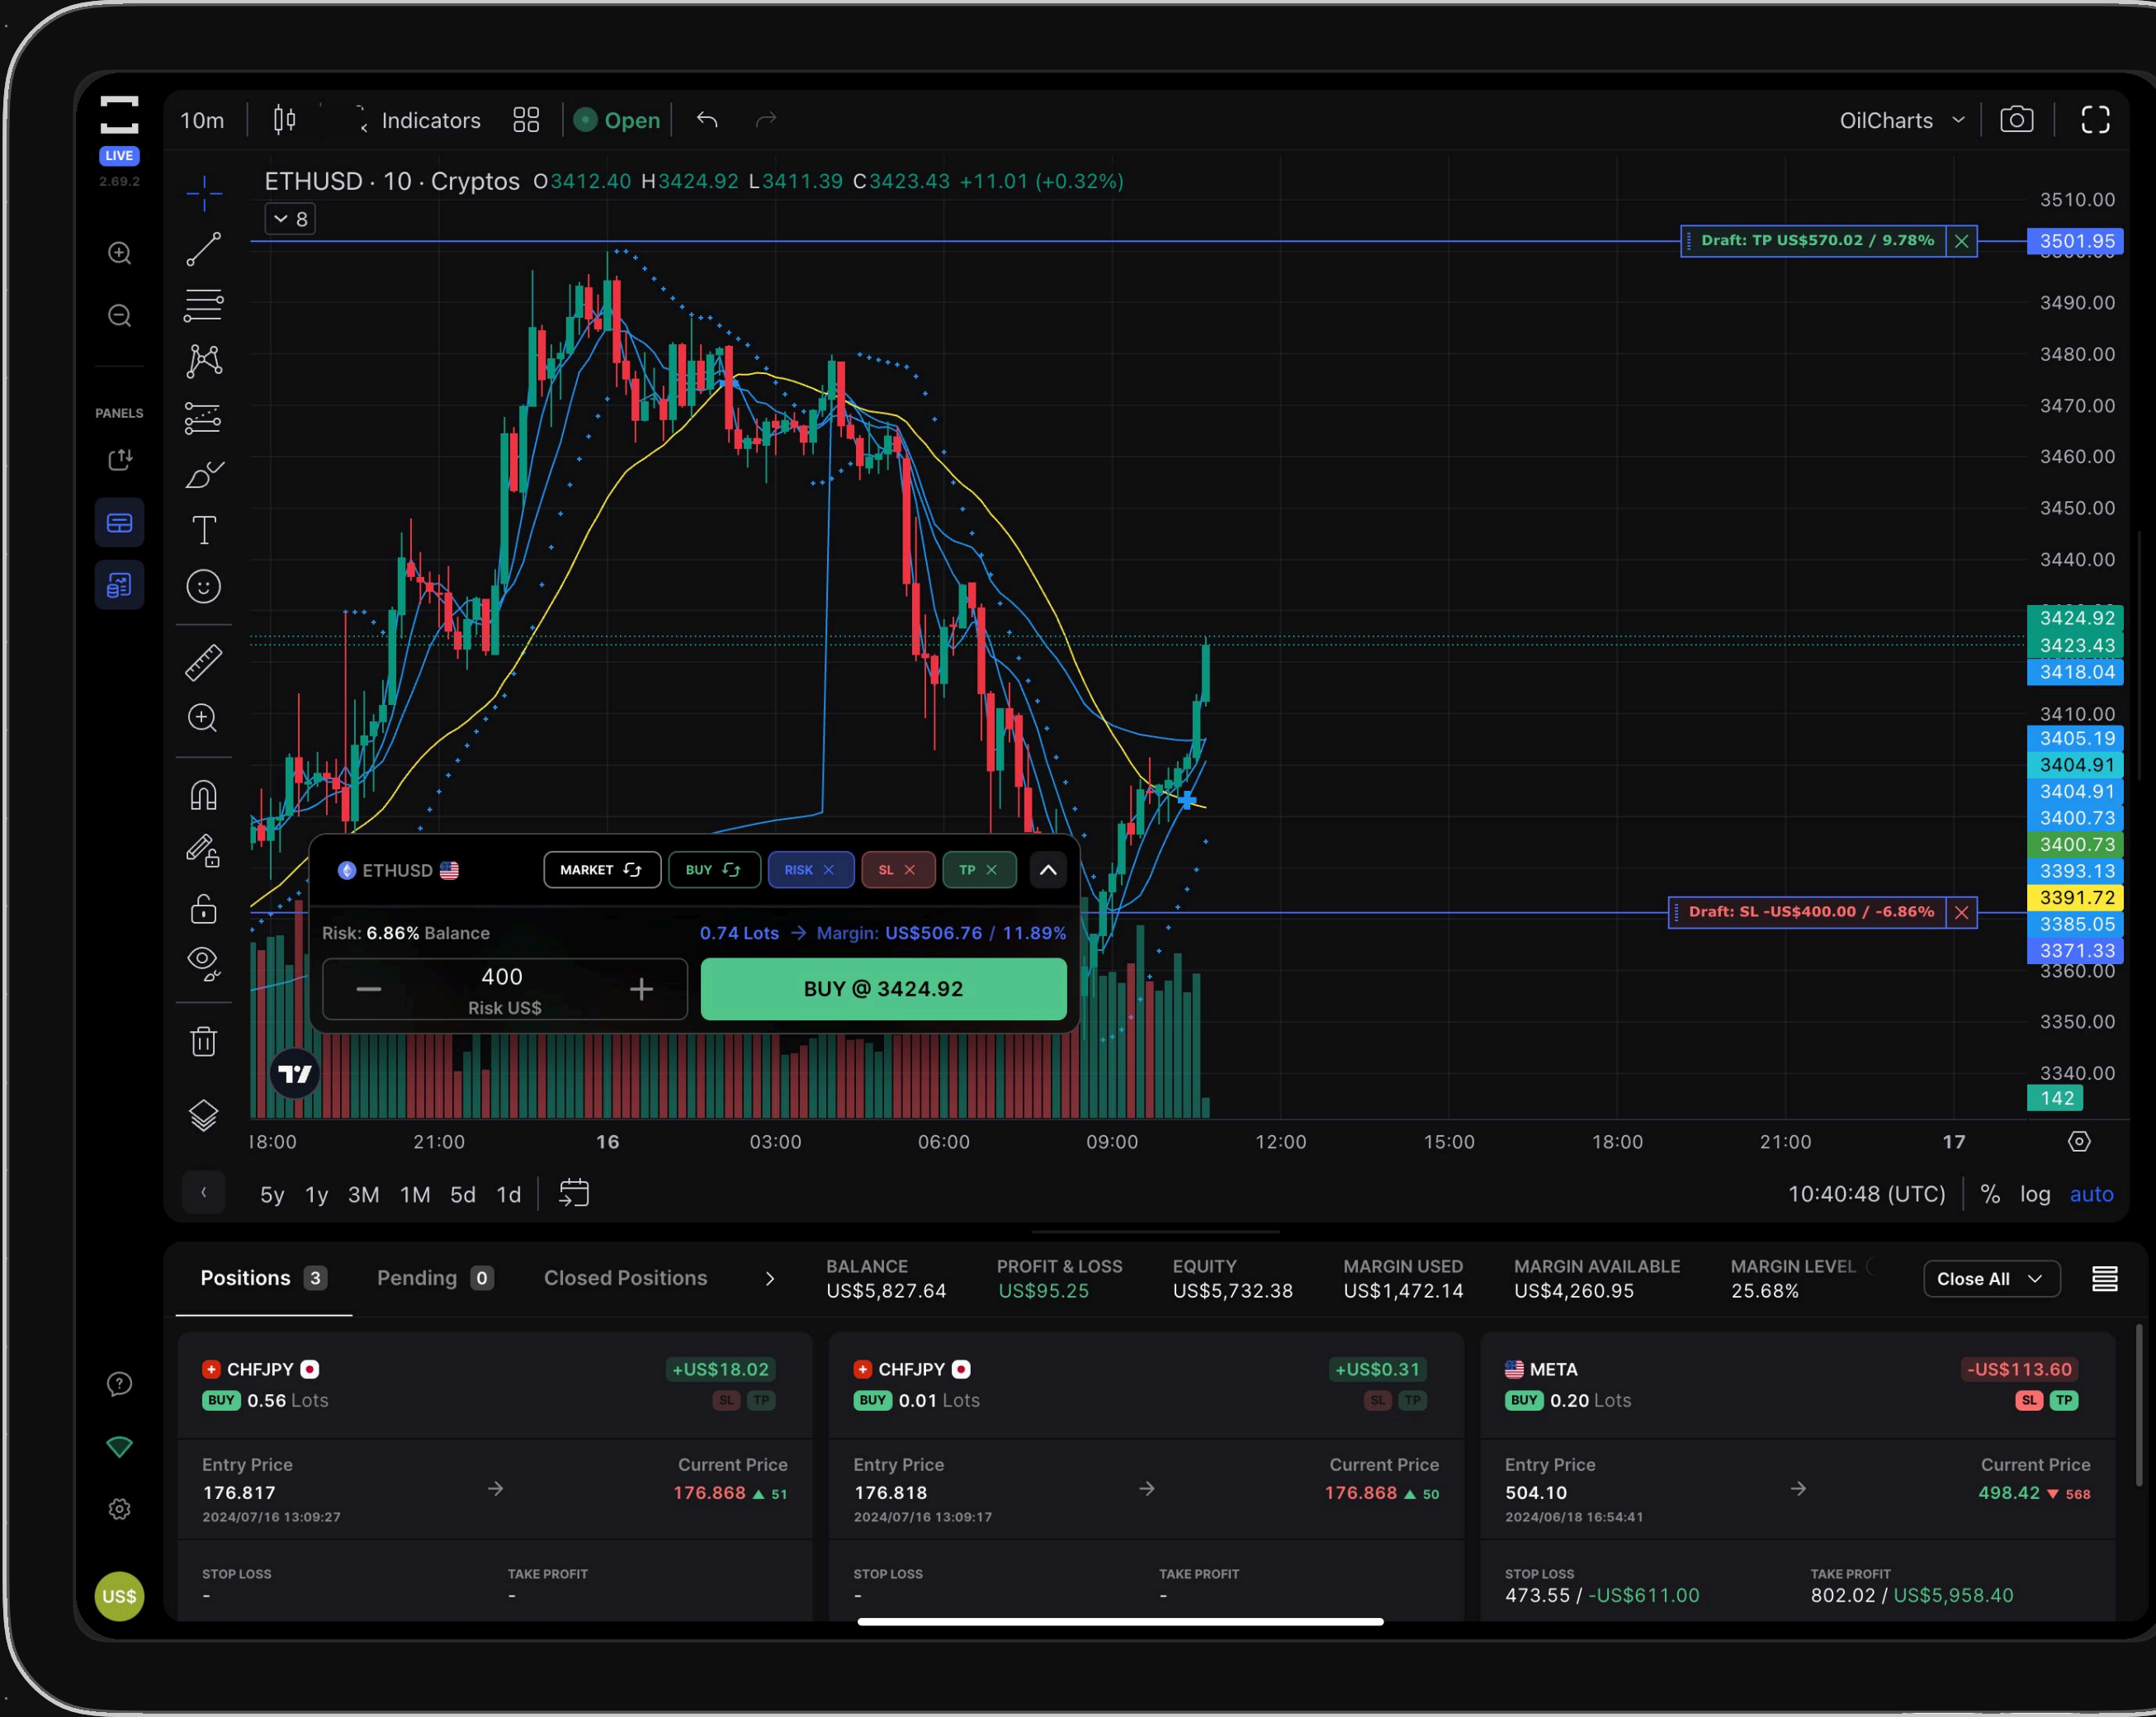

Give your users an ease of mind where they don't have to calculate prices, pips, percentages separately or install additional plugins.

TradingView Charting

For traders who appreciate combining familiar charting with swift and simple execution.

AI Studio

Let traders code their own bots and indicators. Leverage the power of our fast-growing ecosystem.

Familiar Charting by

TradingView™

We integrated the TradingView frame to provide familiar charting and develop our innovative features on top of it.

Trusted by 30+ million Traders Daily

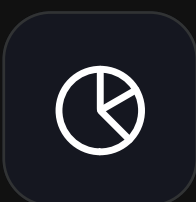

Community-based Charting Templates

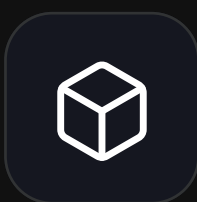

Multiple Charting Types

50+ Smart Drawing Tools

100+ Technical Indicators

Volume Profile Indicators

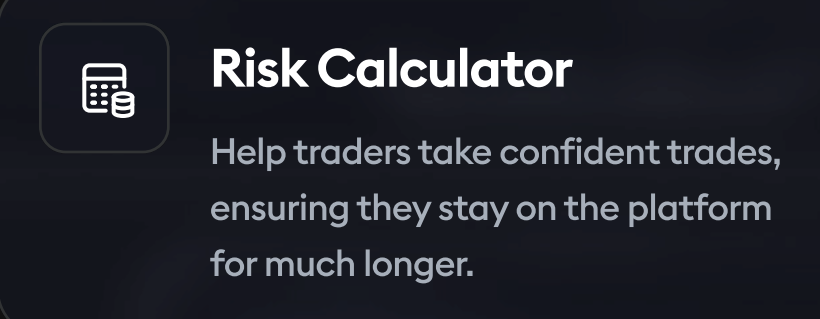

Trading Features

On-Chart Trading • Drag and Drop • Partial Close • Risk Calculator and SL&TP Calculator • Trailing Stop Loss

SL&TP Calculator

Our most popular feature, which gives traders more confidence to place more trades.

Risk Calculator

Help traders take confident trades, ensuring they stay on the platform for much longer.

Trailing Stop Loss

Traders can lock their phone, come back later and profit with a peace of mind.

On-Chart Trading

Most intuitive way of buying and selling assets that boosts trading volume by 32% on avg.

TradingView charts

Integrating TradingView helps traders stay focused and spend more time on the platform.

Risk Calculator and SL&TP Calculator

No add-ons needed. Make precise decisions with an integrated calculator.

Dollar Goals

Want to risk \$100 for \$400 profit? Aim high or set your safety net – you're in control.

\$400

\$100

Relative Ticks Value

Tap into the market's pulse. Input the relative market movement from the opening market price.

6 Ticks

\$1,183.65

Risk Calculator

Set your risk at fixed amount of Dollars or lots. Set the order size, lower the risk.

Percentage Risk

What percent of your current account balance are you willing to risk? You decide.

The Classic Way

Some things never go out of style. Combine the Lot size with the market price to achieve your goal.

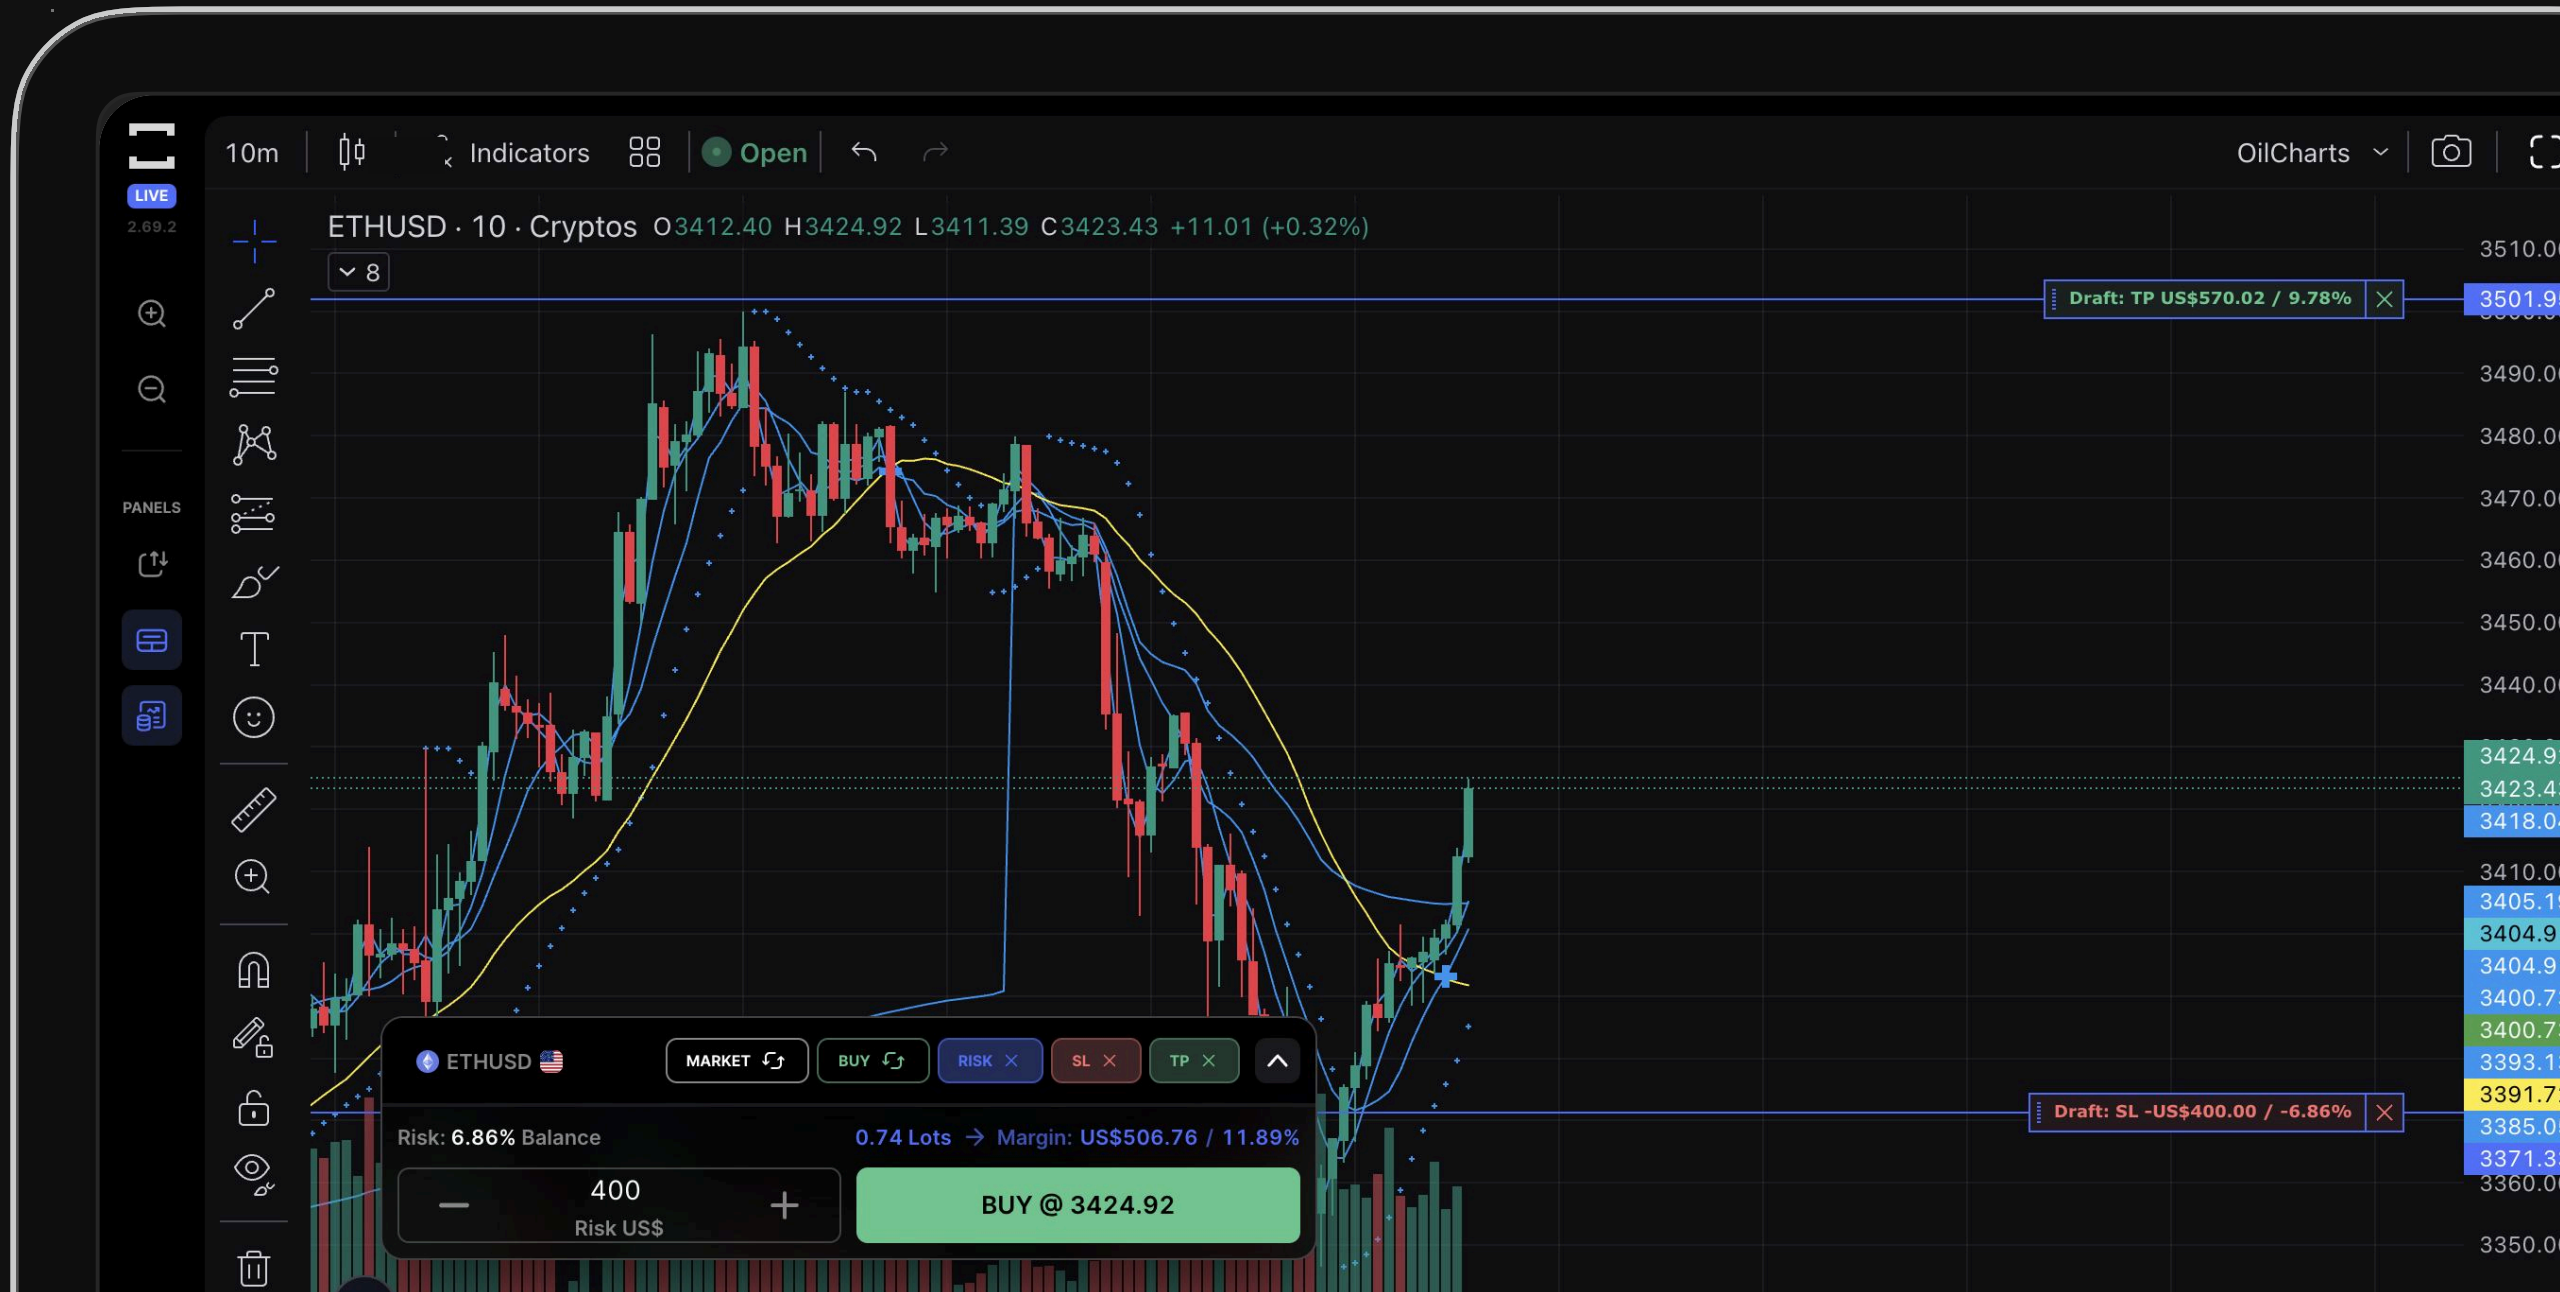

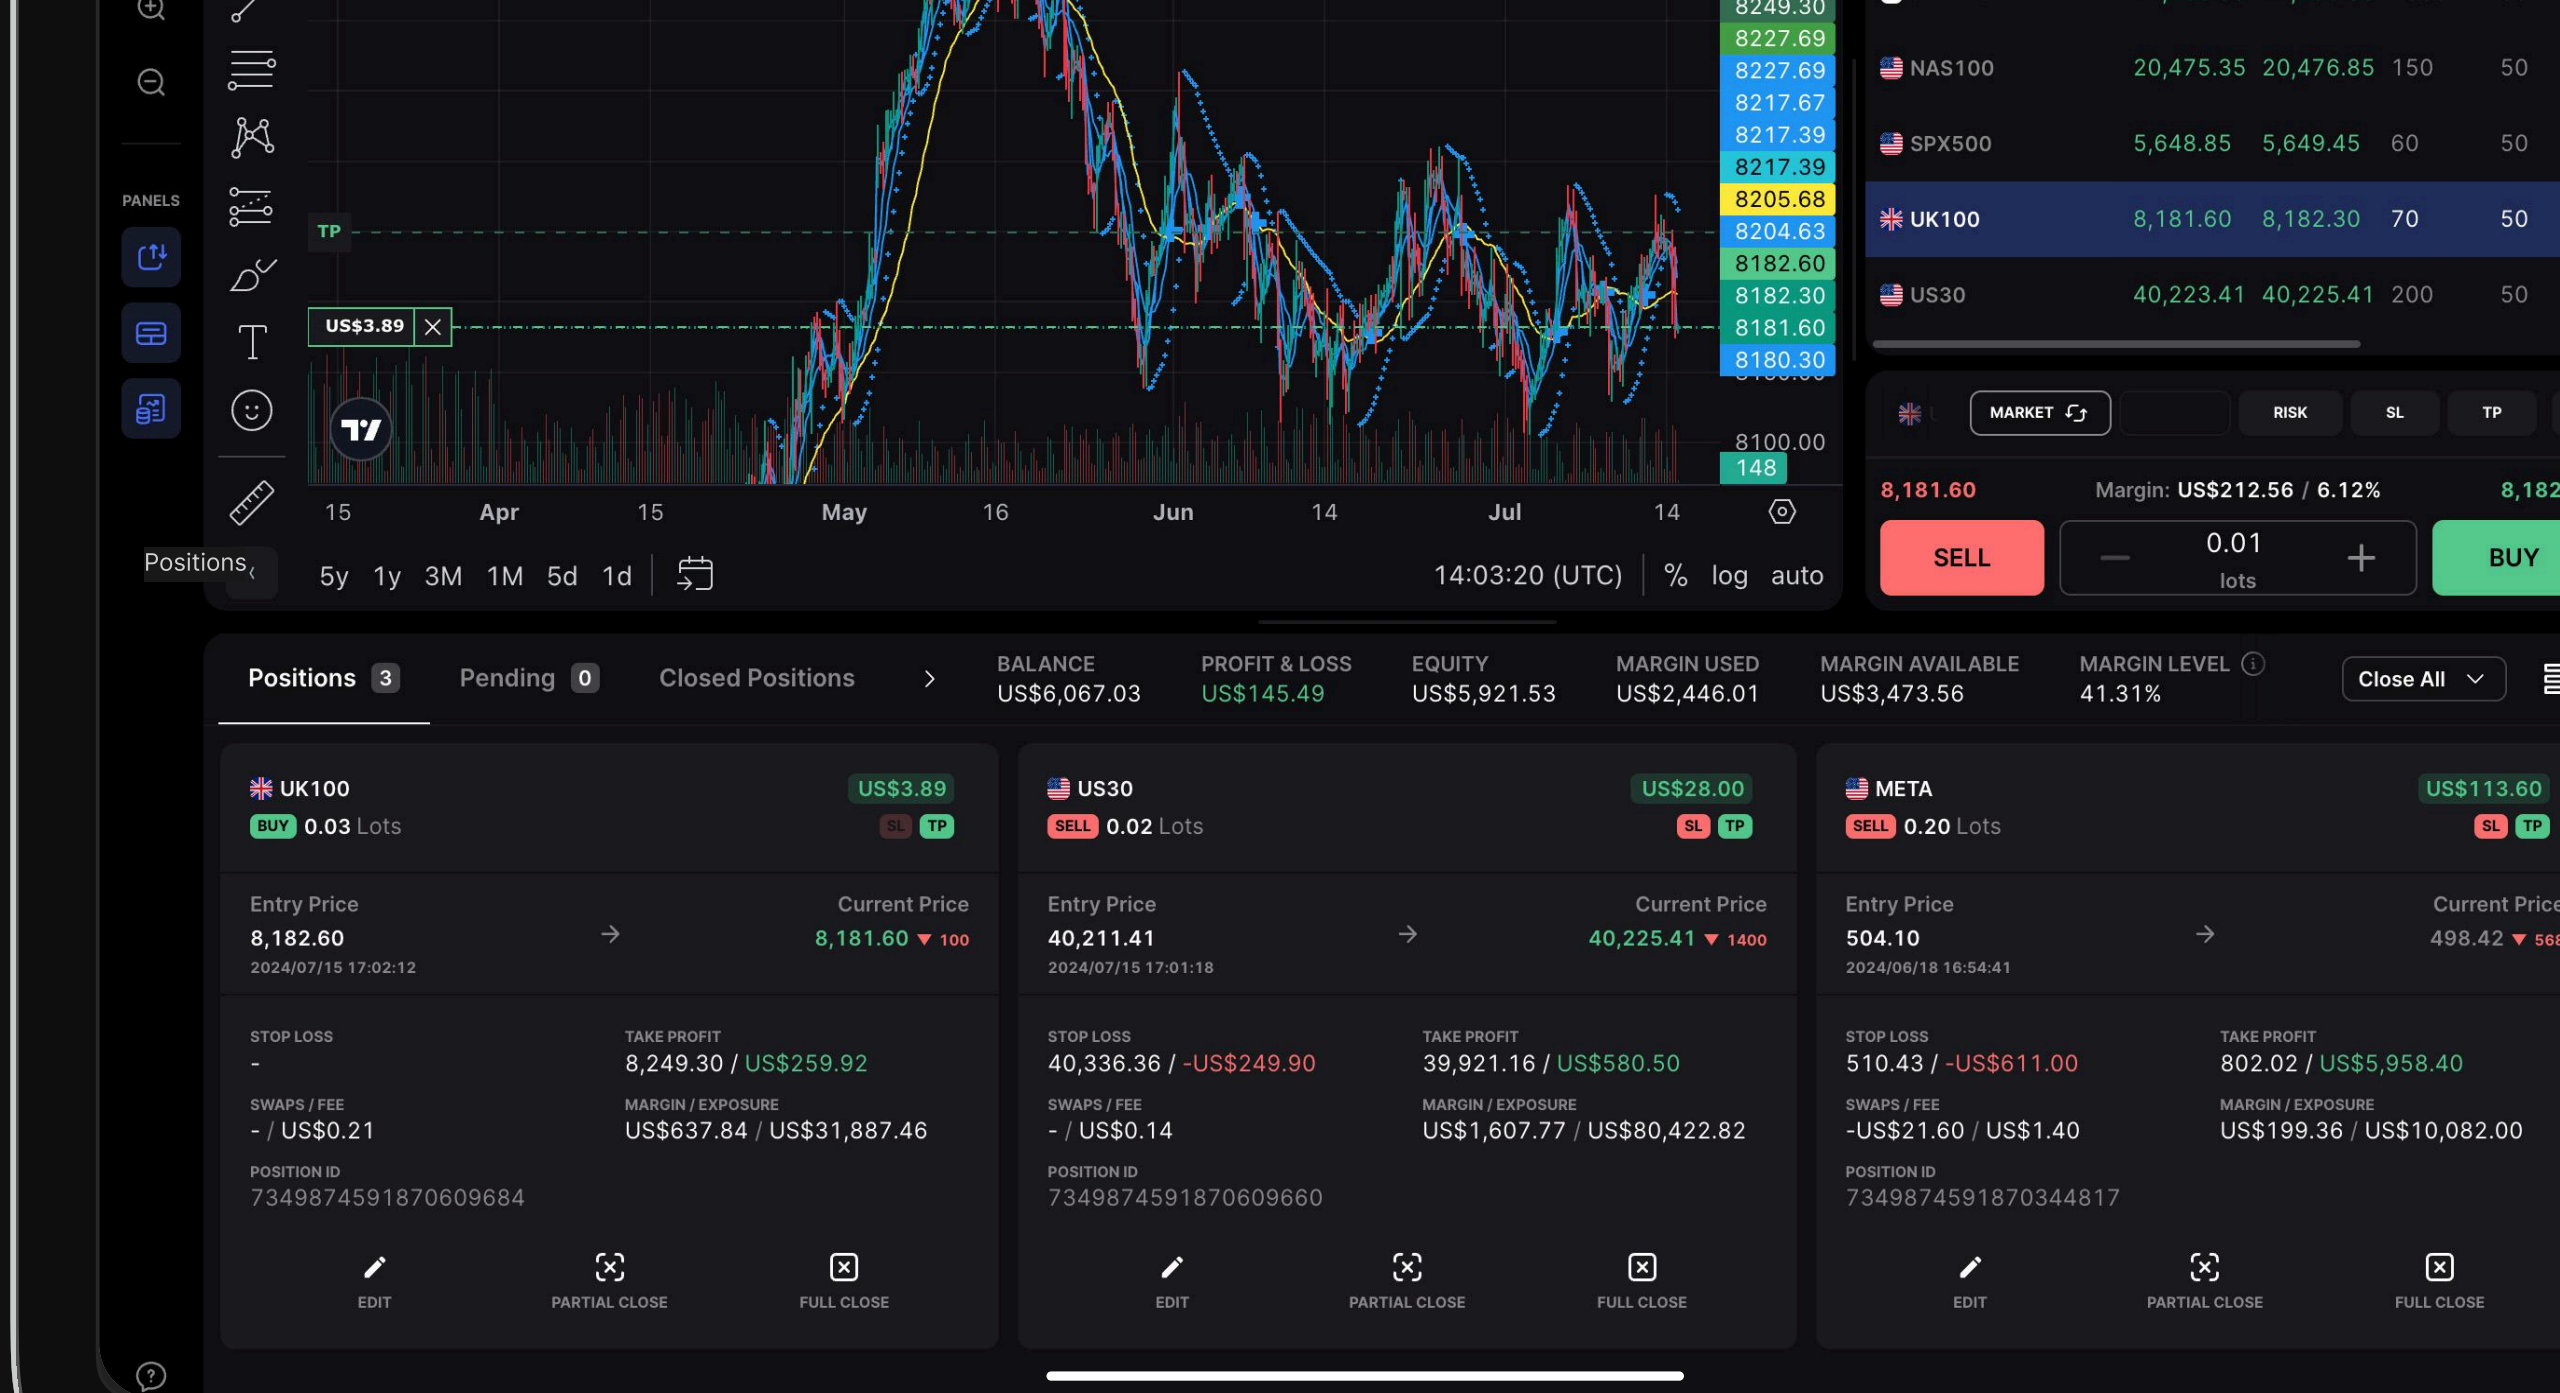

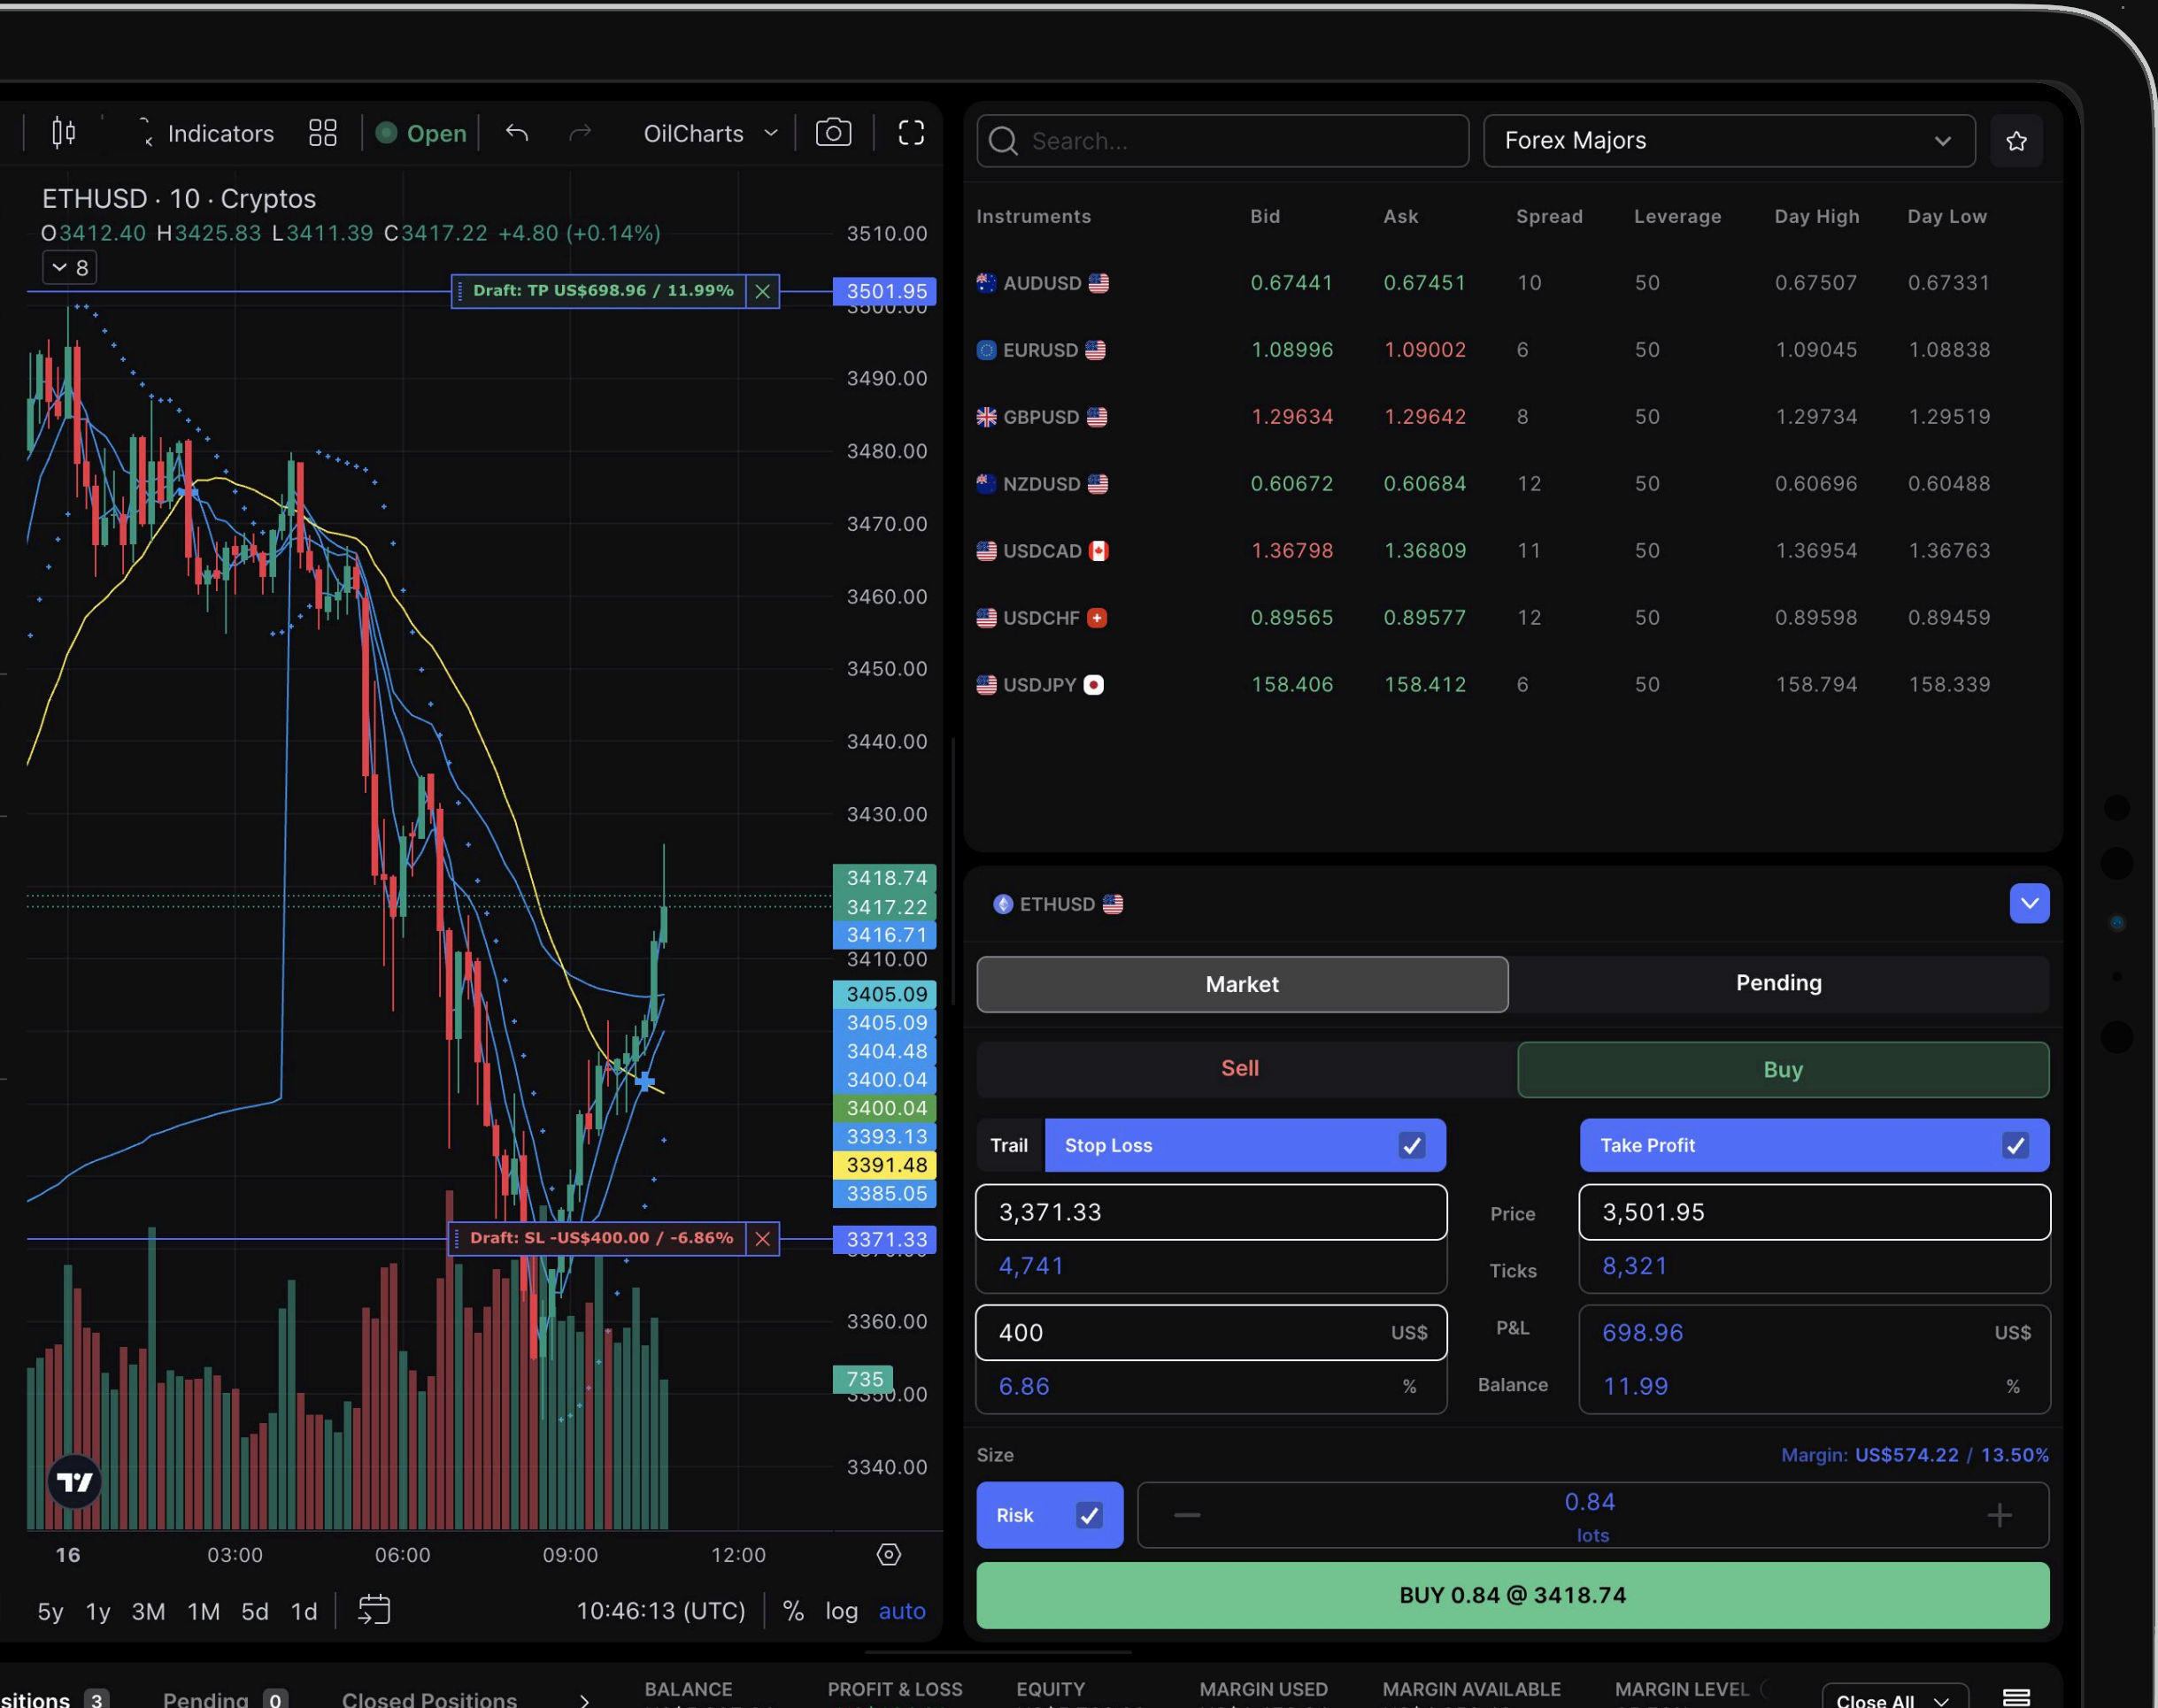

0.02 Lots

\$0.4593

Customise your layout.

Clear the clutter. Experience trading as it should be.

TradeLocker Studio

Make algo-trading accessible to everyone. Gamify bot creation to increase trading frequency and volumes.

Code with AI Assistance

Enable traders, with or without coding experience, to create their own bots and indicators.

AI Assistant

Enter your prompt in the input field below or use one of our examples

Develop an algorithmic trading strategy for the FX (foreign exchange) market focused on capturing short-term trends and profiting from price volatility

Develop an algorithmic trading strategy for the FX market, using the Relative Strength Index (RSI) to identify overbought and oversold conditions, and generate buy/sell signals accordingly

Community Feedback

What sets us apart is not that we listen. We consistently deliver, time and time again.

Although this app is relatively new, I see potentials of how far it can out-perform the old school platforms we have been using. I just hope the team stays motivated and dedicated to this project.

Justice Uma

TradeLocker is a game-changer in the world of day trading. This app introduces a new era of user friendly analysis and trading. It's ideal for both new and professional traders. It has truly transformed my trading experience and perception.

iamzbla

Great platform

Great platform! Easy to use for beginners, and their YouTube channel helps with everything you need to know when trading on their platform. 😊

Sky Howes

A step in the right direction, features still needed.

TradeLocker is a gem! It's easy to use, educational, has excellent customer service. Perfect for newbies and pros alike - I highly recommend it to everyone!

doug_stl8

Hands down best FX trading platform out. Miles ahead of the old established platforms, that look like they haven't been updated on years. This platform overlays trading views charting flawlessly.

Landon Hairston

Very easy to use and smooth interface. The TradingView integration is amazing and the small details like risk calculation and margin percentage are the cherry on top. At the end of the day, this app is simple and usable. Well done.

Beeeeeeeyy

Only one thing to say! That's dope. Super intuitive, easy to use and understand, super fast and precise. From far the best app to trade I use so far. Loving it.

Jonathan R.

Our Track Record

TradeLocker is associated with companies that have a track record of delivering valuable solutions for millions of users in the trading and crypto industries.

One of the most successful broker as a service tech companies

One of the most trader-friendly prop trading firms

We are a part of deux.capital a private investment firm that invests in high-growth companies

Reliable institutional liquidity for digital assets

A regulated and compliant payment solution for both crypto-to-crypto and crypto-to-fiat transactions.

The largest crypto news aggregator
